SUMMARY

Passionate MERN stack developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Eager to contribute technical skills and problem-solving ability to deliver high-quality, scalable solutions in a dynamic development environment

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, React.js, Node.js, Express.js, MongoDB, SQL

Technologies: Git, GitHub, VS Code, Postman, AWS S3, AWS CloudFront, Figma (inspecting fonts, colors, layouts)

PROJECTS

MERN	E-Mart E-mart E-Mart is a full-featured e-commerce web application built using the MERN stack (MongoDB, Express, React, Node.js). Users can browse products, add to cart, wishlist, place orders, and manage their shopping experience seamlessly. https://github.com/DoyalEldho/E-Mart
MERN	Collaboration Tool Team lead can create a group and assign tasks to the team. Team members are given an invited link where they can confirm to join the group. Team members can drag and drop when they start the work and end the work. They can also be part of multiple projects. Gantt chart for team productivity. Comment section for each task where every member can communicate. Priority status - High priority or medium or low priority based on the days counted. https://github.com/DoyalEldho/collaboration-tool
MERN	Finance Management System Finance management system where users can track their income and expenses, categorize them, and visualize their data through interactive charts. Users can set budget limit and if it exceeds they can see an alert. https://github.com/DoyalEldho/Finance-Management-System
React, Firebase	Online Classroom This React Firebase app enables users to join live meetings, record sessions, and upload recordings using Firebase and Jitsi Meet. Students can get the class recording once they request and follow the corresponding teacher. https://github.com/DoyalEldho/OnlineClassRoom
