

Daily Work Report – 13/11/2025

Work Summary – Attendance app

Conducted Interview:

Conducted a **technical interview session** to assess the candidate's knowledge, coding ability, and problem-solving skills. Provided feedback based on performance and coordinated with the team for further evaluation and next steps.

Created New Database- lucky number with Encryption:

Designed and implemented a **new database structure** for the Lottery Application. Integrated **data encryption mechanisms** to secure sensitive user information such as personal details and transaction data, ensuring compliance with data protection standards.

Implemented Swagger Integration for Lucky Number APIs:

Integrated **Swagger documentation** for the **Lucky Number Create and List APIs**, enabling clear API visibility, testing, and interaction through the Swagger UI. This helps both backend and frontend teams in seamless integration and understanding of request/response structures.

Planned Work for 14/11/2025 :

1. Continue working on lottery app
